

Learning Menu

For the week of: April 6, 2020

Grade level: 3

Each day you should try to choose one learning activity from each category. We have tried our best to provide activities that can be done with items you may have around the house. If videos are an option, we will change the links each week to give the student's more variety in their learning. We don't want it to get boring!

If you are in Mme. Babin's French Immersion class. Your math activities and literacy activities should be done in French when possible. Reading in French Links provided for everyone so you can continue to read French books because I know you may not have very many at home. That is ok! We are all just doing our best right now.

Appetizer <ul style="list-style-type: none">◇ Choose a Cosmic Kid's video (links below) and try a guided meditation or yoga series.◇ Write a list of 5-10 things that make you happy.◇ Take ten deep belly breaths (I suggest doing this one everyday!)	My favorite learning activity this week was:
Main <ul style="list-style-type: none">◇ Dream Box Math (online)◇ Math Facts game (description of this week's game options below)◇ Problem of the week	The most challenging activity this week was:
Dessert <ul style="list-style-type: none">◇ Read to self for 20 minutes◇ Practice sight words by writing a sentence for each one.◇ Write a one-page journal entry about your time at home so far. (See example below)	My goal for next week will be:

Links

Cosmic Kids Yoga:

Twilight the Unicorn of Dreams: <https://www.youtube.com/watch?v=RLOOOjGAM1s>

Colonel Crockles the Crocodile: <https://www.youtube.com/watch?v=obzFP6eEGAg>

Cosmic Kids Guided Meditation:

Super Hero Flying: <https://www.youtube.com/watch?v=pVKIZNCL5Ms>

Rainbow Waterfall: <https://www.youtube.com/watch?v=hh58j2Yw6dg>

Breathing

Visual for belly breathing: <https://www.youtube.com/watch?v=Wdbbtgf05Ek>

Dreambox Math:

Link for computer: <https://play.dreambox.com/login/knjs/xrzc>

3B Class Code: 30286

3A Class Code: 36245

*Note: You can also download the app if you have a tablet. The school code for the app is **knjs/xrzc** and you should only have to type it in once.

** Login information will be sent out to you.

French Reading Links:

Je lis: <https://jelis-free.rkpublishing.com/student>

(3B has a login for this website that Mme. Babin made. Your login info will be sent home to each of you. If you are in 3A and would like a login there is 12 more spots on my account and I would be happy to make you a login.)

Les contes de fée (French Fairy Tales): https://www.thefablecottage.com/french?fbclid=IwAR1i-wW36wqGXLZ2TTdiGJP_ZVSILQcoCnRH9QgUqFap37WPX2PKb0x26tY

Tumble Books: <https://www.princeedwardisland.ca/en/service/access-tumblebooks-e-book-collections>

Click the first link on that page to get to the Tumblebooks website and change the language to French in the top right corner.

English Reading Links:

Tumble books: <https://www.princeedwardisland.ca/en/service/access-tumblebooks-e-book-collections>

Click the first link on that page. Then explore books!

YouTube has LOADS of books being read aloud in French OR English. Just go on YouTube and search some of your favorite books. Here is an example:

The Good Egg: https://www.youtube.com/watch?v=FjzLJg6O_9M

Math Facts Games

If you have dice:

(Remember you can get dice from the board games you already have around the house!)

1. Adding dice

Roll two dice and add the numbers together. Play with someone else and whoever says the answer first gets a point! First one to 20 points wins! Make it harder by adding a third and fourth dice.

The same game can be played by subtracting the smaller number from the bigger number. Roll two dice for the first number and then one dice for the second.

2. Race to 30.

Play with one dice or two. Take turns rolling the dice. Each time you roll, add that number to your personal total. The first person to 30 wins! Make it harder by racing to 50 or 100.

The same game can be played by starting at 30 and subtracting in a race to 0.

If you have cards:

1. War: 2+ players

Separate the deck of cards into two equal piles. Each player flips one card from the top of their pile. Both players must add the numbers together and say the answer as fast as possible. The first person to say the answer wins both cards. If it is a tie you can flip another card and the winner of that round takes all.

In this game A=1 J=11 Q=12 K=13 (or you can play without the face cards)

This game can easily be modified to include three players and everyone adds all three numbers together! Winner is the player who collects all the cards or who has the most cards when you're done playing.

2. 99 (We called it BUST in 3B): 2+ players

Each player gets 6 cards. The youngest player goes first by placing a card on the table. The card is the value. Before the next person plays the last person must pick up a card from the deck. The person clockwise will play the next card. The value of that card is added to the existing card. The next person plays a card and the value is added. This is played until either a player cannot play any more cards or the value breaks 99. Ending the round: When the next player can't play without going over 99 he/she loses that round. When a round is over, players return their cards and reshuffle. You win by avoiding elimination; the last player to not "Bust" or go over 99 wins! The cards have the following value:

A=1	2=2	3=3	4=4	5=5	6=6	7=7
8=8	9=0 (total doesn't change)	10= subtract 10	J= the value is automatically 99	Q = add 10	K – Reverse turns	

Problem of the week / La probleme de la semaine

Same problem written in both languages.

How many different ways can you show the number 837. Remember you can use base ten blocks, money, pictures, etc. Can you think of ten different ways !?

Combien de façons peux-tu représenter le nombre 837. N'oubliez-pas, vous pouvez utiliser les blocs de base dix, l'argent, les images, etc. Pouvez-vous penser de dix manières différentes ?

Words of the week / Les mots de la semaine

(these are for reading and spelling)

Français :

(Mme. Babin will post a video on how to pronounce the sight words)

1. j'ai
2. je
3. suis
4. aller
5. voici
6. avec
7. famille
8. trop
9. et
10. pendant

English:

1. because
2. that
3. they
4. what
5. would
6. when
7. this
8. she
9. find
10. where

Journal Entry Example (English):

April 1, 2020

This has been a really long break from school. I miss my students and teacher friends. I hope that we get to go back to school soon, but I know it is important for us to stay home right now. I have done quite a few things during my time home.

I have a dog and a cat. They love to snuggle me and we sit on the couch together every morning while I read my books. I walk the dog every day after breakfast. He is so hyper if he doesn't get his walk! So far I have read two novels, my favorite one is called *The Night Circus*. I have also started painting a picture, cleaned my house really well, organized my office, and video chatted with my friends.

I have been watching a lot of shows on Netflix as well. I have watched *100 Humans* and *Nailed It*. *100 Humans* was really interesting. It is a show where they do experiments to discover things about how people work. *Nailed It* is a funny cooking show where average bakers try to make professional cakes and desserts.

April 2, 2020

Today for breakfast I tried a new recipe. I made shakshuka. It is a homemade tomato sauce with peppers, onions, and spices added in. Then you put three eggs to poach in the sauce. I ate it with gluten free toast and it was so yummy. I was so full though, next time I will have to make a smaller recipe.

Next I walked the dog for 30 minutes and when we got home I FaceTimed with my mom and dad. I started a 1000 piece puzzle today. I think it will take me a long time to finish it on my own. The picture is of a castle on a mountain with a forest in the background. All the pieces look the same, it is going to be hard!

I am so happy to be working from home because it keeps me busy. I like to be busy and I love teaching. I would rather be in the classroom, but at least now with At Home Learning I feel like I can connect with my students.

Journal Entry Example (French):

le 1 avril 2020

C'est un congé de l'école très long. Mes élèves et mes amis de l'école me manquent. J'espère que nous pouvons retourner à l'école bientôt, mais je sais que c'est important de rester chez moi maintenant. J'ai déjà fait plusieurs choses à la maison

J'ai un chat et un chien. Ils aiment me faire des câlins et nous reposons sur le sofa ensemble chaque matin pendant que je lis mes livres. Je me promène avec le chien chaque jour après le petit-déjeuner parce qu'il est super hyperactif s'il ne fait pas ses exercices! Jusqu'à maintenant j'ai lu deux romans, mon roman préféré s'appelle "The Night Circus". J'ai aussi peinturé une toile, j'ai nettoyé ma maison, j'ai organisé mon bureau et j'ai fait des vidéo-conférences (les FaceTimes) avec mes amis.

J'ai regardé plusieurs émissions de télévision sur Netflix aussi. J'ai regardé 100 Humans et Nailed It. 100 Humans est super intéressant. C'est une série où ils font des expériences de découvrir comment les humains fonctionnent. Nailed It c'est une série de cuisson drôle où les boulangers moyens essayent de cuire des gâteaux et des pâtisseries professionnelles.

le 2 avril 2020

Aujourd'hui au petit-déjeuner j'ai essayé une recette nouvelle. J'ai cuit le shakshuka. C'est une sauce de tomates fait à la main avec les poivrons, les oignons, et les épices ajoutées. Après que la sauce soit prête tu ajoutes trois œufs à pocher dans la sauce. Je l'ai mangée avec des rôtis sans gluten et c'était très délicieux. J'ai trop mangé alors la prochaine fois je ferais une recette plus petite.

Ensuite, je me suis promené avec le chien pour 30 minutes et quand nous sommes arrivés chez nous j'ai téléphoné à mes parents sur FaceTime. J'ai commencé un casse-tête de 1000 morceaux aujourd'hui. Je pense que cela va me prendre du temps à terminer toute seule. L'image du casse-tête est un château sur une colline avec une forêt en arrière. Tous les morceaux se ressemblent, ce sera difficile!

Je suis tellement content de travailler chez moi parce qu'il me donne quelque chose à faire. J'aime être occupée et j'adore enseigner. J'aimerais mieux être dans la salle de classe, mais au moins je peux connecter avec mes élèves par l'apprentissage à la maison.
