French Video Links:

La Bande à Munsch: <https://www.youtube.com/watch?v=A-Kpa0elln8>

These videos are Robert Munsch stories in French cartoon form! There are many episodes.

There are many French fairy tales with English subtitles on YouTube!

Note While I have watched these two videos, I have not watched all the Robert Munsch and French Comptes videos and as with all internet use supervision may be required. I am confident they are safe videos, but it's always good to be aware of what is on the screen.

Math Facts Game

Addition/Subtraction BINGO

Each player will make their own playing card, 3 rows, 3 columns. For addition and subtraction, use numbers from 0 to 20 and put a number in each box. Each player's card should look different. Next, make cards to call out the numbers from 0 to 20.

For Addition Bingo, the caller picks a number card and calls out an equation with the answer being the number he/she has. For example, 10. The equation could be $5+5$ or $6+4$. Whoever has 10 on their playing card, will cover it. Call another number and the first player to cover all their numbers, wins the game.

Subtraction Bingo is played the same way except a subtraction equation (10: $11-1$ or $20-10$).

Multiplication BINGO

It is the same as Addition/Subtraction BINGO except using multiplication facts up to 5×5 .

Problem of the week / La probl me de la semaine

Same problem written in both languages.

Jackson has 5 pages of hockey cards. There are 6 cards on each page. How many hockey cards does he have in total? Can you show the answer using multiplication?
