

RES' Family Math Night Postponed

Dear Parents/Guardians:

We regret to inform you that **we need to postpone this week's Family Math Night**; we intend to reschedule this fun-filled event for later in the school year.

All parents are advised that **RES' Chess Clubs will be starting this week**. Please have a conversation with your child to determine if he/she would be interested in joining the Chess Club (both new players and chess masters are welcome)!

Finally, we encourage all families to **continue to spend a bit of time every school night doing Math flash card drills** with their child because we are beginning to see significant improvement in our student's mental Math skills ~ keep-up the great work!

Yours Sincerely,

Mrs. Wilson, Principal of Rexton Elementary School
