

Unique classes every session!!

# Mad Science After School Programs

## Spark your child's learning imagination!

**Rockets** – Blast off! Children will first make balloon rockets indoors. Then we will head outside, weather permitting, to launch a Mad Science Rocket! You'd better bring your glasses... it may disappear in the clouds ☺

**Spy Academy** – Children will attend “spy school” and learn to decode messages and work with cool spy gadgets. Children will take home Mad Science Spy Glasses to continue observing discreetly at home!

**Mad Science Birthday Party!** – We will be celebrating everyone's birthday with a Mad Science birthday party! Children will make super polymer bouncy balls to take home. Weather permitting, we will use our geiser tube to create the highest coke/mentos explosion.... and lots more ☺ Be ready for a crazy time!

**Magic Tricks** – Magic? No... it's science! Children will learn the secrets behind famous magic tricks that they can recreate themselves. They will build and bring home a Mad Science Magic Box to make things “disappear” at home!

**Drag Racers** – Children will build their very own drag racer to take home. These will help us to explore the concepts of kinetic and potential energy. Be ready to race.... ready, set, go!

**Gravity Egg Drop** – Children will participate in an “egg-citing” battle against gravity! Working in teams, they will build a protective shield for their raw egg. We will then drop their creations from a high point on the playground and see if they “beat” gravity.!

---

### Registration Information Required:

**School:** Rexton Elementary School      **Day:** Monday's (6 weeks)      **Start Date:** May 9<sup>th</sup>  
**Time:** K-2 (1:50PM-2:50PM)      **Gr 3-5 (3:05-4:05PM)**
